linkedin.com/in/hyunseopkim827
Seoul, Korea

I build backends with Java and Spring Boot and set up Docker/GitHub Actions CI/CD and AWS deployment. Early in a project, I write AI-agent rules, per-feature spec/implementation/review templates, and team conventions for docs, collaboration, and schedules, so everyone works to one standard and communicates efficiently.

EDUCATION

Hansung University

Mar 2023 – Feb 2027 (expected)

Bachelor's in Computer Engineering · Big Data & Mobile Software tracks

GPA: 4.19/4.5 · 127 credits · 96.4/100 equivalent · as of Spring 2026
Coursework: Database Design, Software Engineering, Operating Systems, Network Programming, Systems Programming, Design Patterns, Big Data Programming

EXPERIENCE

Student Participant · Planning, Specs & DevOps

Jul 6 – Aug 30, 2026

Mobile App Development Cooperative · Work Experience Program ·
ERSync (emergency patient transport coordination system) · 4-person team (2 frontend, 2 backend)

- Set up GitHub Actions and Docker CI/CD: PR tests and image builds; on main, ECR push and SSM deploy to EC2
- Set up AWS EC2, Nginx, ECR, private RDS, Secrets Manager; SSM, not SSH; GitHub OIDC with least-privilege IAM
- Added a readiness-rollback EC2 deploy script, deploy-version API, and Cloudflare Workers CD for hospital/admin web
- Proposed the idea, chose the backend stack, planned the service and MVP requirements, designed the initial DB/API
- Proposed and set up AI-agent rules (AGENTS.md, policy checks), shared context, spec/impl/review/handoff templates

Part-time Kitchen Crew

May – Oct 2022

E-Land Eats (Ashley Queens)

PROJECTS

TodayBread · Surplus-bread ordering and pickup app for local bakeries

Mar – Jun 2026

Backend & DevOps Lead · Mobile Capstone Design course · 4-person team (2 frontend, 2 backend) · authored 39 of 40 merged backend PRs

- Designed the Spring Boot backend structure and built REST APIs for users, stores, bread, carts, orders, and reviews
- Implemented Spring Security JWT authentication, with Argon2 hashing for passwords and refresh tokens
- Integrated Toss Payments confirm/cancel; built Idempotency-Key deduplication and an unpaid-order expiry scheduler
- Designed the MySQL schema (Flyway); set up a Docker Compose local DB, per-env Spring profiles, EC2, RDS, S3
- Wrote technical docs on the APIs, payment flow, DB setup, and development conventions

Review Refining · Detecting incentivized delivery-app reviews to adjust ratings

Mar – Jun 2026

Data & Machine Learning (Big Data Programming course · 4-person team)

- Co-designed a rating-adjustment pipeline that down-weights likely incentivized reviews; implemented most of it
- Merged and cleaned 11,310 Baemin reviews into an 8,841-review dataset; labeled incentivized ones by menu name
- Trained an MLP on KcBERT embeddings plus metadata (PCA, SMOTE, 5-fold cross-validation); compared TF-IDF, metadata-only, KcBERT-only, and hybrid models with error analysis; built a demo for single-review and CSV input

Tools built with AI coding agents

Jun 2026 – present

Personal projects · Menu Pulse (menu bar monitor) · Finder Presets (Finder view presets)

- Defined each tool's requirements and specs; verified the AI agents' output through hands-on use and iterated on it
- Automated test-gated DMG releases with GitHub Actions; ongoing versioned releases

SKILLS

Backend	Java, Spring Boot, Spring Security, JWT, REST API, SpringDoc OpenAPI
Database	MySQL, Spring Data JPA, Flyway
Infrastructure	AWS (EC2, ECR, RDS, S3, Secrets Manager, SSM), Cloudflare Workers, Nginx, Linux
CI/CD & Testing	GitHub Actions, Docker, Docker Compose, JUnit 5, Testcontainers
AI Workflow	AI coding agents, AGENTS.md working rules, spec → implementation → review docs
Data Analysis	Python, pandas, scikit-learn
Other	C, Git & GitHub PR-based collaboration, Notion

LANGUAGES, CERTIFICATES & SCHOLARSHIPS

Korean	Native
English	OPIc IH (Sep 2025) · TOEIC Speaking 150/200 (IH, Sep 2026)
Certificates	TOPCIT Level 3 (May 2026) · 602/1,000 · ICT competency test by IITP
Scholarships	Merit Scholarship (Spring 2024 – Spring 2026) · Hansung University · 5 consecutive semesters

ACTIVITIES & MILITARY SERVICE

English Discussion Club Member — Hansung University H-LEP — Sep 2024 – Jun 2025

Weekly English discussions on selected topics

9th Winter Programming Camp, Participant — Hansung University — Jan 20 – 24, 2025

5-day residential camp · intensive Java practice and problem solving · industry seminars

Republic of Korea Marine Corps — Completed mandatory service — Nov 2020 – May 2022
